Wark on Gamer Theory. McKenzie Wark argues that digital computer games are the dominant form of cultural expression in modern times. The gamer assumes a new position in society, somewhere between subject and citizen, and the implications of this new role are profound. Gamer theory starts with a suspension of the assumptions □ that there is a more real world □ somewhere, and that someone□some priest or

Writer, theorist and educator

McKenzie Wark writes in 2019's

Capital is Dead: "reduced to nothing but users, and our actions forced into the commodity form, our collective work and play produces a world over and against us...collective human labor made a world for a ruling class that keeps making not only itself but us in its image." Can we see technology as a social and psychic apparatus—that the two are dependent on one another?
