Do you know that your kid is the one most likely to get head lice? Do you know that the usual commercial products for head lice only make them even stronger? Hi, my name is Michael Adams and I am a father My daughter used to suffer from head lice As any regular parents would do, I tried many commercial products At first, it looked like they worked but soon after that, the lice came back stronger How did I know that they were stronger? Because the same commercial product that worked before just wouldn't do anything The head lice became resistant and not only that, these commercial products came with side effects The best way to fight them? If you ask me, natural remedies are the best They work as effective if not more compare to commercial products with very little or even no side effects Now, I feel that it is my job as a father to help other parents who are struggling with head lice I have compiled all that I know inside this book I am pretty sure my book will definitely help you

Developed and refined by two successful pediatricians, the "Jassey Way" boasts more than a 90% success rate of getting children to sleep through the night in their first 4 weeks of life. A safe and proven technique, the Jassey Way uses a feeding schedule that allows newborns (and their parents) a full night's sleep at a younger age than other sleep training techniques.

Aimed at parents, teachers, nurses, pediatricians, pharmacists, and hair-dressers--anyone who must deal with head lice--this handbook covers everything from detecting and treating head lice to preventing infestation in the first place. "Upbeat, vastly informative".--San Francisco Chronicle.
