A specific SPN can be a clue to a worn out turbocharger in the MBE 900 diesel engine, leading experienced technicians to look in a certain repair direction and test for verification. Cummins Automotive & Diesel Service can check your engine's turbo boost, look for exhaust leaks, pressure check the charge air cooler, check hoses and clamps and look for soot tracks around the exhaust system.

I have a 2005 Freightliner Columbia with Mercedes MBE 4000 engine. This truck has been nothing but problems from day one. At 290K the coolant started to leak from head gaskets, so the dealer replaced liners, pistons and head gaskets under warranty. Now at 415K, just 15K out of warranty, the same problem is happening.

The head gasket on this 2008 Mercedes MBE 900 diesel engine has failed. That's the least of possibilities. Another option would be a cracked head but I'm staying optimistic. One thing for sure the top end of these diesels are very tough and I'm betting my money on the head gasket being the main problem.
