Miller Bobcat 225 and 260 Welders FREE helmet FREE gloves---

Engine driven welders are typically transported on a truck or trailer and are primarily used outdoors. The electricity generated by an engine driven welder powers fans, pumps, air compressors or other electrical tools commonly found on jobsites. During power outages, an engine driven welder can also be used as a backup generator. Fusion (1)

Miller Welder Generators—Engine-Driven-Welders-and-Machines

Miller bobcat 225g plus won't weld or generate ac power 05-05-2018. 12:21 PM New here I've seen several people really good with these welders. While I can make almost any engine run im not so good with all the electrical stuff.

Miller bobcat 225g plus won't weld or generate ac power---

I am considering using the Miller 225NT for a back-up generator for my house. I looked at the specs, but i dont understand the curve listed 100%. I know that the Lincoln Ranger8 puts out 8000watts at 220, but only 4000 at 120v. looking at the Miller i believe it puts out 9000 at either 220 or 120. I hope this is the case.
