Portraiture is a very old art form going back at least to ancient Egypt, where it flourished from about 5,000 years ago. Before the invention of photography, a painted, sculpted, or drawn portrait was the only way to record the appearance of someone. But portraits have always been more than just a record.

From New York's Lower East Side to San Francisco, four generations of an immigrant family in America come to life in this New York Times-bestselling saga. In an act of great courage and will, Esther Sandsonitsky leaves her abusive new husband and tiny village on the border between Poland and Germany for the more welcoming shores of the United States. When she makes her way through the throng at Ellis Island, the world is on the threshold of a new century. But Esther is on her own quest: to capture a piece of the American dream for her children, including Jacob, the son she was forced to leave behind. *Portraits* tells an indelible story of the struggles and sacrifices of a family—and a people—searching for a place to belong.

"This is the first study of the portraits Barack Obama (2018) and Michelle Obama (2018), their reception, and their significance. The book includes essays by historians examining the influence of the paintings and what they reveal about contemporary portraiture, particularly in relation to American and African American history and culture. The book also features interviews with the artists, transcripts of the remarks made by the Obamas at the unveiling, and a selection of images, including behind-the-scenes

This book conveys an understanding of China's educational development from within and provides unique insights into Chinese society. It does so through portraits of eleven influential educators whose ideas have shaped the educational reforms initiated by Deng Xiaoping in 1978. The book makes Chinese civilization concrete through the drama of the real lives of educators and provides glimpses into the educational context of China's recent move onto the world stage.

A major new book from one of the world's leading writers and art critics John Berger, one of the world's most celebrated art writers, takes us through centuries of drawing and painting, revealing his lifelong fascination with a diverse cast of artists. In Portraits, Berger grounds the artists in their historical milieu in revolutionary ways, whether enlarging on the prehistoric paintings of the Chauvet caves or Cy Twombly's linguistic and pictorial play. In penetrating and singular prose, Berger presents entirely new ways of thinking about artists both canonized and obscure, from Rembrandt to Henry Moore, Jackson Pollock to Picasso. Throughout, Berger maintains the essential connection between politics, art and the wider study of culture. The result is an illuminating walk through many centuries of visual culture, from one of the contemporary world's most incisive critical voices.
