What makes an effective executive? The measure of the executive, Peter F. Drucker reminds us, is the ability to "get the right things done." This usually involves doing what other people have overlooked as well as avoiding what is unproductive. Intelligence, imagination, and knowledge may all be wasted in an executive job without the acquired habits of mind that mold them into results. Drucker identifies five practices essential to business effectiveness that can, and must, be learned: Managing time Choosing what to contribute to the organization Knowing where and how to mobilize strength for best effect Setting the right priorities Knitting all of them together with effective decision-making Ranging widely through the annals of business and government, Peter F. Drucker demonstrates the distinctive skill of the executive and offers fresh insights into old and seemingly obvious business situations.

The measure of the executive, Peter Drucker reminds us, is the ability to 'get the right things done'. Usually this involves doing what other people have overlooked, as well as avoiding what is unproductive. He identifies five talents as essential to effectiveness, and these can be learned; in fact, they must be learned just as scales must be mastered by every piano student regardless of his natural gifts. Intelligence, imagination and knowledge may all be wasted in an executive job without the acquired habits of mind that convert these into results. One of the talents is the management of time. Another is choosing what to contribute to the particular organization. A third is knowing where and how to apply your strength to best effect. Fourth is setting up the right priorities. And all of them must be knitted together by effective decision-making. How these can be developed forms the main body of the book. The author ranges widely through the annals of business and government to demonstrate the distinctive skill of the executive. He turns familiar experience upside down to see it in new perspective. The book is full of surprises, with its fresh insights into old and seemingly trite situations.

In his sixty-five-year consulting career, Peter F. Drucker, widely regarded as the father of modern management, identified eight practices that can make any executive effective. Leadership is not about charisma or extroversion. It's about these practices: Effective executives ask, "What needs to be done?" They also ask, "What is right for the enterprise?" They develop action plans. They take responsibility for decisions. They take responsibility for communicating. They focus on opportunities rather than problems. They run productive meetings. And they think and say "we" rather than "I." Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

The Effective Executive in Action is a journal based on Peter F. Drucker's classic and preeminent work on management and effectiveness -- The Effective Executive. Here Drucker and Maciariello provide executives, managers, and knowledge workers with a guide to effective action -- the central theme of Drucker's work. The authors take more than one hundred readings from Drucker's classic work, update them, and provide provocative questions to ponder and actions to take in order to improve your own work. Also included in this journal is a space for you to record your thoughts for later review and reflection. The Effective Executive in Action will teach you how to be a better leader and how to lead according to the five main pillars of Drucker's leadership philosophy.

Effective Executive, Laura Stack details precisely how 21st-century leaders and managers can obtain profitable, productive results by managing the intersection of two critical values: effectiveness and efficiency. Effectiveness, Stack says, is identifying and achieving the best objectives for your organization—doing the right things. Efficiency is accomplishing them with the least amount of time, effort, and cost—doing things right. If you're not clear on both, you're wasting your time. As Drucker put it, "There is nothing so useless as doing efficiently that which should not be done at all." Stack's 3T Leadership offers twelve practices that will enable executives to be effective and efficient, grouped into three areas where leaders spend their time: Strategic Thinking, Teamwork, and Tactics. With her expert advice, you'll get scores of new ideas on how you, your team, and your organization can boost productivity.

The essential book on management from the man who invented the discipline Now completely revised and updated for the first time

With ambition, drive, and talent, you can rise to the top of your chosen profession regardless of where you started out. But companies today aren't managing your career-- you must be your own chief executive officer. It's up to you to carve out your place in the world and know when to change course. In this short work Drucker gives you the keys to unlock your full potential so that you can achieve true and lasting excellence.

Gain insight into the writings of Peter Drucker, one of management's greatest thinkers, with this digital collection curated by Harvard Business Review. "Managing Oneself," "What Makes an Effective Executive," "The Theory of the Business," "Why Read Peter Drucker," "What Peter Drucker Knew About 2020," and "Clay Christensen on Peter Drucker" will help managers and leaders better understand, and manage, the complex challenges they face in our volatile world.

This wide-ranging, future-oriented book is sure to number among the most important and influential business books of the decade. Drucker writes with penetrating insight about the critical issues facing managers in the 1990s: the world economic order; people at work; new trends in management and the governance of organizations.
