Once they reach safety, however, the men and women on board realize that they are earth’s last remaining survivors—and they’ve all been exposed to radiation. When none of the women seems able to conceive, fear sets in. Will this be the end of humankind?

The incredible true story of the last ship to carry enslaved people to America, the remarkable town its survivors founded after emancipation, and the complicated legacy their descendants carry with them to this day—by the journalist who discovered the ship’s remains. Fifty years after the Atlantic slave trade was outlawed, the Clotilda became the last ship in history to bring enslaved Africans to the United States. The ship was scuttled and burned on arrival to hide evidence of the crime, allowing the wealthy perpetrators to escape prosecution. Despite numerous efforts to find the sunken wreck, Clotilda remained hidden for the next 160 years. But in 2019, journalist Ben Raines made international news when he successfully concluded his obsessive quest through the swamps of Alabama to uncover one of our nation’s most important historical artifacts. Traveling from Alabama to the ancient African kingdom of Dahomey in modern-day Benin, Raines recounts the ship’s perilous journey, the story of its rediscovery, and its complex legacy. Against all odds, Africatown, the Alabama community founded by the captives of the Clotilda, prospered in the Jim Crow South. Zora Neale Hurston visited in 1927 to interview Cudjo Lewis, telling the story of his enslavement in the New York Times bestseller Barracoon. And yet the haunting memory of bondage has been passed on through generations. Clotilda is a ghost haunting three communities—the descendants of those transported into slavery, the descendants of their fellow Africans who sold them, and the descendants of their American enslavers. This connection binds these groups together to this day. At the turn of the century, descendants of the captain who financed the Clotilda’s journey lived nearby—where, as significant players in the local real estate market, they disenfranchised and impoverished residents of Africatown. From these parallel stories emerges a profound depiction of America as it struggles to grapple with the traumatic past of slavery and the ways in which racial oppression continue to this day. And yet, at its heart, The Last Slave Ship remains optimistic – an epic tale of one community’s triumphs over great adversity and a celebration of the power of human curiosity to uncover the truth about our past and heal its wounds.

For Joan Wong, growing up in a Chinese family in the political turmoil of 1960s Guyana, family history is never straightforward. There are the examples of her grandmothers - Clarice Chung, iron-willed matriarch who has ensured the family's survival through unremitting toil, with her pride in maintaining racial and cultural identity, and Susan Leo, whose failures have shamed the family, who found comfort from harsh poverty in relationships with two Indian men and adopting an Indian life-style. Later, when Joan Wong makes her own pilgrimage to ancestral China at the turn of the twenty-first century, there are surprises in store.
