Machen's weird tales of the creepy and fantastic finally come to Penguin Classics. With an introduction from S.T. Joshi, editor of American Supernatural Tales, The White People and Other Weird Stories is the perfect introduction to the father of weird fiction. The title story "The White People" is an exercise in the bizarre leaving the reader disoriented and on edge.

The White People and Other Weird Stories by Arthur Machen
"As a selection of 'weird' short stories, The White People is a fine example of the precursor to what has become a popular subgenre of fantasy fiction, as well as a window on to the spiritual concerns of the Welsh author Arthur Machen (1863-1947): the veil separating the phenomenal world and the supernal realm is thin. While we may have forgotten the rituals, spells, charms and wards once used to commune with the spirits, the spirits have not forgotten us."

The term Other White is a classification of ethnicity in the United Kingdom and has been used in documents such as the 2011 UK Census to describe people who self-identify as white persons who are not of the English, Welsh, Scottish, Romani or Irish ethnic groupings. The category does not comprise a single ethnic group but is instead a method of identification for white people who are not represented by other white census categories. This means that the Other White group contains a diverse collec

The White People is a horror short story by Welsh author Arthur Machen. Written in the late 1890s.

The White People (1904) is a short story by Arthur Machen. Originally published in Horlick’s Magazine, the story was later printed in The House of Souls (1906), a short story collection. Condemned as decadent and obscene upon publication, Machen’s writing earned praise from Oscar Wilde and H. P. Lovecraft. Throughout the years, Machen’s work has been referenced and adapted by such figures as Stephen King, Guillermo del Toro, and Josh Malerman for its masterfully unsettling blend of science, myth, and magic. As the sun sets over the lush countryside, Cotgrave and his friend Ambrose discuss the thin boundary that separates sorcery and the sacred. Unable to agree about the nature of good and evil, on what defines a sinner as opposed to a saint, Ambrose offers his comrade a book to borrow. Surprisingly well-kept for its age, the green book accompanies Cotgrave on his journey home, where he opens it to discover a strange, mysterious tale. Its pages contain the diary of a young girl who, encouraged by her nurse, immerses herself in the world of magic. As she grows adept in the ways of witchcraft, the girl begins referring to strange beings and unknown places, all while doing her best to conceal her secret life from friends and family. When he reaches the diary’s end, Cotgrave will wish he had never looked past its binding. With a beautifully designed cover and professionally typeset manuscript, this edition of Arthur Machen’s The White People is a classic of British horror fiction reimagined for modern readers.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

In the satirical tradition of the New York Times bestseller Stuff White People Like comes this witty companion book to the “incredibly entertaining” (Indiewire) film of the same name, which “heralds a fresh and funny new voice” (Variety). Right out of college, Justin Simien wrote a screenplay about the nuanced experiences of four black students on a predominantly white college campus. The film, Dear White People, garnered a Sundance Award for its masterfully unsettling blend of science, myth, and magic. As the sun sets over the lush countryside, Cotgrave and his friend Ambrose discuss the thin boundary that separates sorcery and the sacred. In eleven glorious stories, Allan Gurganus, author of the highly acclaimed Oldest Living Confederate Widow Tells All, gives heart-breaking and hilarious voice to the fears, desires, and triumphs of Americans—black and white, gay and straight, old and young, Northern and especially Southern. Here are war heroes bewildered by the complex negotiations of family life, former debutantes called upon to muster resources they never knew they had, vacationing senior citizens confronted by their own bravery, and married men brought up short by the marvelous possibilities of entirely different lives. Written with flair, wit, and deep humanity, this award-winning volume confirms Allan Gurganus as one of the finest writers of our time. The title novella of White People won the National Magazine Prize

Part of a new six-volume series of the best in classic horror, selected by Academy Award-winning director of The Shape of Water Guillermo del Toro
American Supernatural Tales is the ultimate collection of weird and frightening American short fiction. As Stephen King will attest, the popularity of the occult in American literature has only grown since the days of Edgar Allan Poe. The book celebrates the richness of this tradition with chilling contributions from some of the nation's brightest literary lights, including Poe himself, H. P. Lovecraft, Shirley Jackson, Ray Bradbury, Nathaniel Hawthorne, and—of course—Stephen King. This volume also includes "The Yellow Sign," the most horrific story from The King in Yellow, the classic horror collection by Robert W. Chambers featured on HBO's hit TV series True Detective. By turns phantasmagoric, spectral, and demonic, this is a frighteningly good collection of stories. Filmmaker and longtime horror literature fan Guillermo del Toro serves as the curator for the Penguin Horror series, a new collection of classic tales and poems by masters of the genre. Included here are some of del Toro's favorites, from Mary Shelley's Frankenstein and Ray Russell's short story "Sardonicus," considered by Stephen King to be "perhaps the finest example of the modern Gothic ever written," to Shirley Jackson's The Haunting of Hill House and stories by Ray Bradbury, Joyce Carol Oates, Ted Klein, and Robert E. Howard. Featuring original cover art by Penguin Art Director Paul Buckley, these stunningly creepy deluxe hardcovers will be perfect additions to the shelves of horror, sci-fi, fantasy, and paranormal aficionados everywhere.

Presents a striking picture of the elements of contemporary public education that conspire against the prospects for poor children of color, creating a persistent gap in achievement during the school years that has eluded several decades of reform. By the best-selling author of Other People's Children.

NEW YORK TIMES BESTSELLER Building on the groundwork laid in the New York Times bestseller *White Fragility*, Robin DiAngelo explores how a culture of niceness inadvertently promotes racism. In *White Fragility*, Robin DiAngelo explained how racism is a system into which all white people are socialized and challenged the belief that racism is a simple matter of good people versus bad. DiAngelo also made a provocative claim: white progressives cause the most daily harm to people of color. In *Nice Racism*, her follow-up work, she explains how they do so. Drawing on her background as a sociologist and over 25 years working as an anti-racist educator, she picks up where *White Fragility* left off and moves the conversation forward. Writing directly to white people as a white person, DiAngelo identifies many common white racial patterns and breaks down how well-intentioned white people unknowingly perpetuate racial harm. These patterns include: [] rushing to prove that we are “not racist” [] downplaying white advantage [] romanticizing Black, Indigenous and other peoples of color (BIPOC) [] pretending white segregation “just happens” [] expecting BIPOC people to teach us about racism [] carefulness [] and feeling immobilized by shame. DiAngelo explains how spiritual white progressives seeking community by co-opting Indigenous and other groups’ rituals create separation, not connection. She challenges the ideology of individualism and explains why it is OK to generalize about white people, and she demonstrates how white people who experience other oppressions still benefit from systemic racism. Writing candidly about her own missteps and struggles, she models a path forward, encouraging white readers to continually face their complicity and embrace courage, lifelong commitment, and accountability. *Nice Racism* is an essential work for any white person who recognizes the existence of systemic racism and white supremacy and wants to take steps to align their values with their actual practice. BIPOC readers may also find the “insiders” perspective useful for navigating whiteness. Includes a study guide.

Argues for the necessity of a new ethos for middle-class white anti-racism. Building on her book *Revealing Whiteness*, Shannon Sullivan identifies a constellation of attitudes common among well-meaning white liberals that she sums up as “white middle-class goodness,” an orientation she critiques for being more concerned with establishing anti-racist bona fides than with confronting systematic racism and privilege. Sullivan untangles the complex relationships between class and race in contemporary white identity and outlines four ways this orientation is expressed, each serving to establish one’s lack of racism: the denigration of lower-class white people as responsible for ongoing white racism, the demonization of antebellum slaveholders, an emphasis on colorblindness—especially in the context of white childrearing—and the cultivation of attitudes of white guilt, shame, and betrayal. To move beyond these distancing strategies, Sullivan argues, white people need a new ethos that acknowledges and transforms their whiteness in the pursuit of racial justice rather than seeking a self-righteous distance from it.
