"For a moment the image before us is frozen: our world, our lives, reduced to a handful broken stars half lost in uncharted space. Then it's gone, the view swallowed by the hyperspace winds streaming past, blue-green auroras wiping the after-images away. Until all that's left is us" ? Amie Kaufman, These Broken Stars

These Broken Stars Quotes by Amie Kaufman

These Broken Stars is a well written YA science fiction novel that does circumvent a lot of the cliches in the genre. What begins as a "Titanic" type disaster turns into a survival story with the characters slowly bonding over the course of their ordeal. Lilac LaRue is the daughter of one of the wealthiest men in the galaxy.

the chilling whispers that haunt their every step. Lilac and Tarver may find a way off this planet. But they won't be the same people who landed on it. The first in a sweeping science fiction trilogy, *These Broken Stars* is a timeless love story about hope and survival in the face of unthinkable odds.

Jubilee Chase and Flynn Cormac should never have met. Lee is captain of the forces sent to Avon to crush the terraformed planet's rebellious colonists, but she has her own reasons for hating the insurgents. Rebellion is in Flynn's blood. His sister died in the original uprising against the powerful corporate conglomerate that rules Avon with an iron fist. These corporations make their fortune by terraforming uninhabitable planets across the universe and recruiting colonists to make the planets livable, with the promise of a better life for their children. But they never fulfilled their promise on Avon, and decades later, Flynn is leading the rebellion. Desperate for any advantage against the military occupying his home, Flynn does the only thing that makes sense when he and Lee cross paths: he returns to base with her as prisoner. But as his fellow rebels prepare to execute this tough-talking girl with nerves of steel, Flynn makes another choice that will change him forever. He and Lee escape base together, caught between two sides in a senseless war. The stunning second novel in the *Starbound* trilogy is an unforgettable story of love and forgiveness in a world torn apart by war.

A year ago, Flynn Cormac and Jubilee Chase made the now infamous Avon Broadcast, calling on the galaxy to witness for their planet, and protect them from destruction. Some say Flynn's a madman, others whisper about conspiracies. Nobody knows the truth. A year before that, Tarver Merendsen and Lilac LaRoux were rescued from a terrible shipwreck???now, they live a public life in front of the cameras, and a secret life away from the world's gaze. Now, in the center of the universe on the planet of Corinth, all four are about to collide with two new players, who will bring the fight against LaRoux Industries to a head. Gideon Marchant is an eighteen-year-old computer hacker known in Corinth's underworld as The Knave of Hearts. He'll climb, abseil and worm his way past the best security measures to pull off onsite hacks that others don't dare touch. Sofia Quinn has a killer smile, and by the time you're done noticing it, she's got you offering up your wallet, your car, and anything else she desires. She holds LaRoux Industries responsible for the mysterious death of her father and is out for revenge at any cost. When a LaRoux Industries security breach interrupts Gideon and Sofia's separate attempts to infiltrate their headquarters, they're forced to work together to escape. Each of them has their own reason for wanting to take down LaRoux Industries, and neither trusts the other. But working together might be the best chance they have to expose the secrets LRI is so desperate to hide.

Don't miss the breathtaking short story that connects the first two novels in the *Starbound* trilogy, *These Broken Stars* and *This Shattered*

World. Tarver still has nightmares about the night, six months before the Icarus crash, when he rescued a group of civilian researchers being held hostage by brutal mercenaries. Now Tarver and Lilac must reconcile his memories of that fateful night with the truth that they uncovered on a mysterious planet after the Icarus crashed. Includes a bonus preview chapter from This Shattered World.

When Earth intercepts a message from a long-extinct alien race, it seems like the solution the planet has been waiting for. The Undying's advanced technology has the potential to undo environmental damage and turn lives around, and Gaia, their former home planet, is a treasure trove waiting to be uncovered. For Jules Addison and his fellow scholars, the discovery of an alien culture offers unprecedented opportunity for study... as long as scavengers like Amelia Radcliffe don't loot everything first. Mia and Jules' different reasons for smuggling themselves onto Gaia put them immediately at odds, but after escaping a dangerous confrontation with other scavvers, they form a fragile alliance. In order to penetrate the Undying temple and reach the tech and information hidden within, the two must decode the ancient race's secrets and survive their traps. But the more they learn about the Undying, the more their presence in the temple seems to be part of a grand design that could spell the end of the human race...

"Sex has always come without consequences for Evan--until the night when all the consequences land at once, leaving him scarred inside and out"--

Earth's fate rests in their hands. Trapped aboard the Undying's ancient spaceship and reeling from the truth they've uncovered, Mia and Jules are desperate to warn their home about what's coming. After a perilous escape, they crash-land on Earth's surface?but Jules and Mia can hardly fathom their new predicament: No one believes them. Because the threat against Earth is hiding in plain sight. A mounting global crisis is taking shape, starting with a mysterious illness that seems to reduce its victims to a regressed state. Jules and Mia have no choice but to take matters into their own hands, escaping custody of the International Alliance in order to reunite Jules with his father, the disgraced expert on the alien race, whose research may be the key to saving humanity. From the mountains of Spain to the streets of Prague, the epic conclusion to the Unearthed series is a white-knuckle ride that will keep readers guessing until the final page.

sarcasm A sociopath scientist with a fondness for shooting her bunkmates A smart-ass tech whiz with the galaxy's biggest chip on his shoulder An alien warrior with anger-management issues A tomboy pilot who's totally not into him, in case you were wondering And Ty's squad isn't even his biggest problem--that'd be Aurora Jie-Lin O'Malley, the girl he's just rescued from interdimensional space. Trapped in cryo-sleep for two centuries, Auri is a girl out of time and out of her depth. But she could be the catalyst that starts a war millions of years in the making, and Tyler's squad of losers, discipline cases, and misfits might just be the last hope for the entire galaxy. NOBODY PANIC.

Lark Ainsley has yearned to become an adult by having her magical energy harvested, but when she is finally chosen a special talent is revealed and, rather than become a human battery powering the dome that protects humanity, she escapes hoping to find the Iron Wood, a wilderness rumored to be inhabited by others like herself.

Perfect for fans of Robopocalypse, this action-packed science-fiction debut introduces a chilling future and an unforgettable heroine with a powerful role to play in the battle for humanity's survival. The machines have risen, but not out of malice. They were simply following a command: to stop the endless wars that have plagued the world throughout history. Their solution was perfectly logical. To end the fighting, they decided to end the human race. A potent symbol of the resistance, Rhona Long has served on the front lines of the conflict since the first Machinations began--until she is killed during a rescue mission gone wrong. Now Rhona awakens to find herself transported to a new body, complete with her DNA, her personality, even her memories. She is a clone . . . of herself. Trapped in the shadow of the life she once knew, the reincarnated Rhona must find her place among old friends and newfound enemies--and quickly. For the machines are inching closer to exterminating humans for good. And only Rhona, whoever she is now, can save them. Praise for Machinations "A tension-filled story of loss, loyalty, and forgiveness, with abundant Terminator-style shoot-em-up scenes and a snarky, kickass female warrior. I inhaled it!"--Jennifer Foehner Wells, author of Fluency and Remanence "Powerful and fast-paced, Machinations is an action-packed SF thriller loaded with fantastic characters and gut-wrenching emotional twists. Hayley Stone had me from page one with Rhona's story of desperation, survival, and the amazing depths of love. Stone perfectly interweaves Rhona's fight for humanity's survival with the deeper experiences of trust, loss, and love all wrapped in a ragtag band of courageous survivors, each with their own gripping tale. The prose is stunning, the action is nonstop."--Linnea Sinclair, author of Gabriel's Ghost "A clone's wry inner voice propels this tale of a machine uprising, and how the rebel leader's genetic copy must step into her late original's combat boots. Rhona is a great protagonist, and Hayley Stone creates terrifying opponents in the rebellious AIs. An SF techno-thriller with heart and soul."--Alex Bledsoe, author of The Hum and The Shiver
